

PSAV's Green Policy

PSAV is made up of dedicated employees looking to work as a team with hotels, associations, producers and meeting planners, as Partners in Show™. We are united by concern for each other and for the greater world at large. PSAV is connected to a global environment, and we recognize our responsibility to participate in a sustainable meeting experience.

Our commitments are:

 **To support local sourcing of gear and technicians.**

A significant portion of a meeting's environmental footprint comes from shipping. PSAV has worldwide equipment locations to minimize if not eliminate the carbon footprint from shipping.

 **PSAV seeks to source environmentally responsible products wherever possible.**

For our electronic products, this will include Energy Star and/or RoHS (Restriction of Hazardous Substances) compliant purchases. For consumables, we prioritize and measure recyclable consumption.

 **PSAV seeks the safe disposal of all retired equipment and electronic consumables.**

This ranges from equipment to rechargeable batteries to bulbs. We have partnered with Waste Management Corporation to ensure environmentally safe disposal of our e-waste.

 **PSAV will pursue good corporate citizenship practices for our internal operations.**

This includes following CIC (Convention Industry Council) green recommendations for our internal meetings, pursuing recycling opportunities at our major offices, and prioritizing purchases of recycled materials for internal consumption wherever possible.

As the industry's leading event technology company, we are proud of the success we have achieved to date and look forward to continually improving our performance.
